

**Amendments to the Specification:**

Please amend the sentence beginning on line 3 of page 1 (paragraph 1) as follows:

--This application is a continuation of U.S. Patent Application Serial No. 10/039,437 filed on November 9, 2001, now U.S. Patent No. 6,618,890, which is a continuation of PCT Application Serial No. PCT/US00/12926 filed by Audrey Muhr-Sweeney on May 11, 2000 which claims the benefits of and priority to U.S. Provisional Patent Applications Serial Nos. 60/133,444 entitled "CLEAN LEADER CARD" and 60/133,443 entitled "UNIVERSAL CLEANING CARD" both of which were filed on May 11, 1999 by Audrey Muhr-Sweeney, the entire contents of each of these applications are hereby incorporated by reference herein.--

Please amend the sentence beginning on line 3 of page 2 (paragraph 3) as follows:

--However, it is known that alcohol-based solutions can detrimentally [effect] affect the life of the more sensitive, internal working components of these devices, e.g., repeated cleaning with an alcohol-based [solutions] solution can [effect] affect the elasticity of the feed or follower rollers/bars and/or r/w/s/ heads.--

Please amend the sentence beginning on line 7 of page 2 (paragraph 3) as follows:

--Moreover, it is also known that bulk shipping of alcohol-based solutions can often be difficult and may require special permits and/or less than efficient shipping methods due to certain countries classifying alcohol-based solutions as hazardous or unsafe substances.--

Please amend the sentence beginning on line 3 of page 4 (paragraph 11) as follows:

--Preferably, the adhesive substrate can be any known adhesive, e.g., chemical [adhesive] adhesives (i.e., latex, acrylic, resin, silicone, neoprene and urethane), pressure sensitive adhesives, contact adhesives, aerosol adhesives, epoxies, solvent-based adhesives, water-based adhesives, curing adhesives, cyanoacrylate adhesives, heat-activated & heat re-activated adhesives and/or cohesive adhesives.--

Please amend the sentence beginning on line 3 of page 10 (paragraph 35) as follows:

--Preferably, the adhesive substrate can be any known adhesive, e.g., chemical [adhesive] adhesives (i.e., latex, acrylic, resin, silicone, neoprene and urethane), pressure sensitive adhesives, contact adhesives, aerosol adhesives, epoxies, solvent-based adhesives, water-based adhesives, curing adhesives, cyanoacrylate adhesives, heat-activated & heat re-activated adhesives and/or cohesive adhesives.--

Please amend the sentence beginning on line 11 of page 11 (paragraph 39) as follows:

--As can be appreciated by the present disclosure, an alcohol-based cleaning solution is not used to clean the r/w/s/ heads 75 and/or the rollers 50a, 50b, 60a, 60b since it is commonly known that the repeated cleaning with alcohol-based solutions, e.g., isopropyl alcohol and the like, may cause detrimental effects on the roller and/or r/w/s/ heads, e.g., repeated cleaning with an alcohol-based solutions may [effect] affect the overall elasticity of the rollers.--
